

Selection criteria of the additional aptitude quota (*zusätzliche Eignungsquote*; short: ZEQ)

The allocation of places is based on a ranking list in which a maximum of 100 ranking points can be achieved:

Criteria Weighting					
TMS	Vocational training	Work experience	Service	Prizes	Total
90	4	2	2	2	100

TMS – a maximum of 90 ranking points

The points achieved by the applicant *Points TMS_A* are calculated as follows:

$$Points\ TMS_A = \frac{TMS\ weight}{2} + \frac{TMS\ standardscore\ B-100}{10} * \frac{TMS\ weight}{6}$$

The following applies: 0 points for TMS standard score (*Standardwert*) < 70

$$TMS\ weight = 90$$

TMS standard score_A is the result that the applicant achieved in the TMS.

Completed vocational training/work experience

One or more recognised vocational trainings yield 4 ranking points.

One or more work experiences of at least **one year** each following the vocational training yield 2 ranking points.

Services/voluntary work

One or more recognised services/voluntary work yield 2 ranking points.

Prizes

One or more recognised prizes yield 2 ranking points.

Please find the lists with relevant vocational trainings, services/voluntary work and prizes in the criteria of the AdH (higher education institutions' own selection procedures).
