

Faculty of Engineering, Computer Science and Psychology

Module Catalog for the Engineering Department

Thank you for your interest in Ulm University!

To generate a catalog of the module descriptions for all Master's-level courses taught by the Engineering Department (both in English as well as German), please carry out the following steps:

Step 1: Visit Ulm University's "Campus Online" website at <https://campusonline.uni-ulm.de/>
No login or password is needed to access these pages.

Step 2: Change the language to English by clicking on the UK flag in the upper right corner.

The screenshot shows the website header with the Ulm University logo and navigation menu. The main content area displays a welcome message and a login form.

Step 3: Now select the menu item “Study” (top row), and then click on “Modulhandbücher Archiv” (German for “module catalog archive”). Select the most recent semester that appears in the list.

Step 4: Search through the list for “Master Elektrotechnik FSPO 20XX”, where XX stands for the most recent year available, and click on it.

Step 5: You have arrived at the module catalog for the Master’s study program in Electrical Engineering. In this PDF document you will find descriptions of all courses taught by the Engineering Department (at the Master’s level), including important information like the number of credit points (“ECTS-Punkte”), language of instruction (“Unterrichtssprache”), learning objectives (“Lernziele”), and assessment methods (“Bewertungsmethode”).

If you have difficulties or questions, please contact the Program Coordinator, Dr. Margarita Puentes-Damm: margarita.puentes-damm@uni-ulm.de
