

Selection criteria for Dentistry at Ulm University

The allocation of places is based on a ranking list in which a maximum of 100 ranking points can be achieved:

Criteria Weighting						
Abitur	TMS	Vocational training	Work experience	Service	Prizes	Total
46	44	6	-	2	2	100

Higher education entrance qualification – a maximum of 46 ranking points

In order to make the overall average grade in the Abitur (general higher education entrance qualification) more comparable in terms of difficulty and assessments, hochschulstart.de determines the ranking points in the AdH (*Auswahlverfahren der Hochschulen*; higher education institutions' own selection procedures) on the basis of the percentile ranking procedure for the top performers in the Abitur (*Abiturbestenquote*)

Further details at hochschulstart.de

TMS – a maximum of 44 ranking points

The points achieved by the applicant *Points TMS_A* are calculated as follows:

$$Points\ TMS_A = \frac{TMS\ weight}{2} + \frac{TMS\ standard\ score\ A - 100}{10} * \frac{TMS\ weight}{6}$$

The following applies: 0 points for TMS standard score (*Standardwert*) < 70

TMS weight = 44

TMS standard score_A is the result that the applicant achieved in the TMS.

Completed vocational training

One or more recognised vocational trainings yield 6 ranking points.

Services/voluntary work

One or more recognised services/voluntary work yield 2 ranking points.

Prizes

One or more recognised prizes yield 2 ranking points.

Vocational training, work experience, special educational qualifications or subject-related practical activities as well as extracurricular activities that were acquired/ practised abroad may be recognised as equivalent.

You can find the list for recognised completed vocational trainings, recognised services and voluntary work, and recognised prizes on the German site.
